PROLIGHT
designed to create

SHAPE

office lighting reinvented

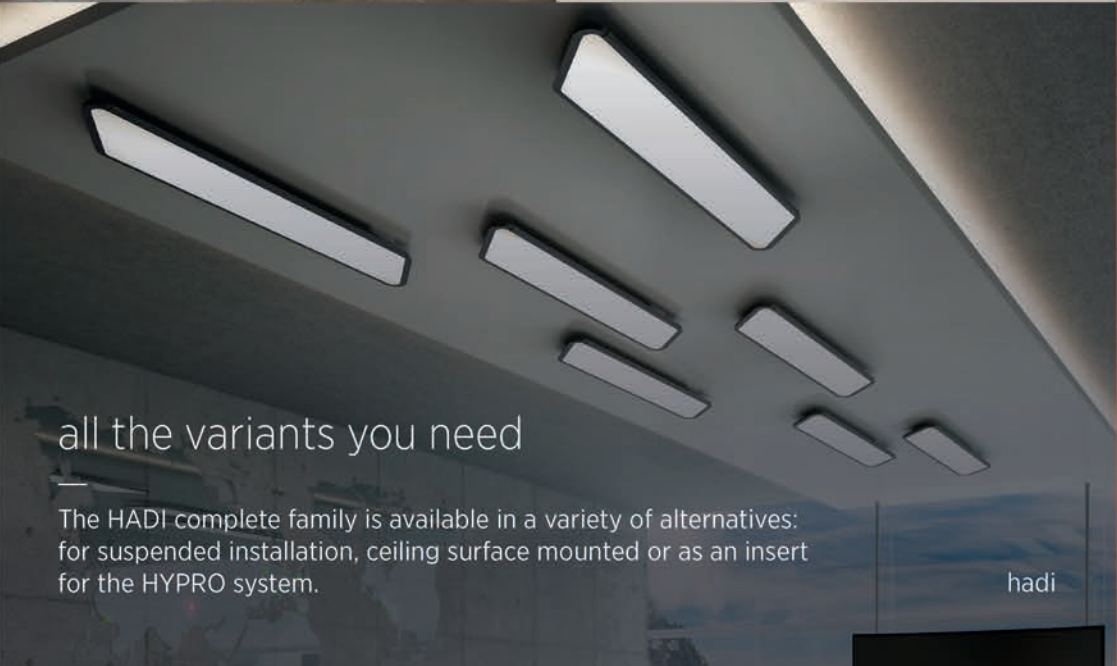

The versatile HADI family offers perfect lighting solutions for every office project, adapting seamlessly to diverse spaces and applications, from small offices to open-plan networks.

hadi

'Through the synthesis of architecture and design, a successful composition can evolve to create an atmospherically perfect room.'
Hadi Teherani | Architect & Designer

hadi

all the variants you need

The HADI complete family is available in a variety of alternatives: for suspended installation, ceiling surface mounted or as an insert for the HYPRO system.

hadi

design and technology

HADI combines advanced technology with a distinctive design to deliver uncompromising performance. Its die-cast aluminium frame incorporates a high-efficiency edge-lighting engine and a multilayer prismatic diffuser to ensure optimal light distribution. Smart sensor control, a remote control and indirect tunable white lighting further enhance its capabilities.

hadi

HADI-Q

DIMENSIONS

H 48: 1403 x 240 mm

LIGHT OUTPUT

3911 - 7041 lm

POWER

37.31 - 77.79 W

LED / CCT DIRECT

3000 K, 4000 K

TUNABLE WHITE: 2700 - 6500 K

LED / CCT INDIRECT

3000 K, 4000 K

TUNABLE WHITE: 2700 - 6500 K

HADI-M

DIMENSIONS

H 48: 1242 x 240 mm

LIGHT OUTPUT

4269 - 7406 lm

POWER

37.31 - 77.79 W

LED / CCT DIRECT

3000 K, 4000 K

LED / CCT INDIRECT

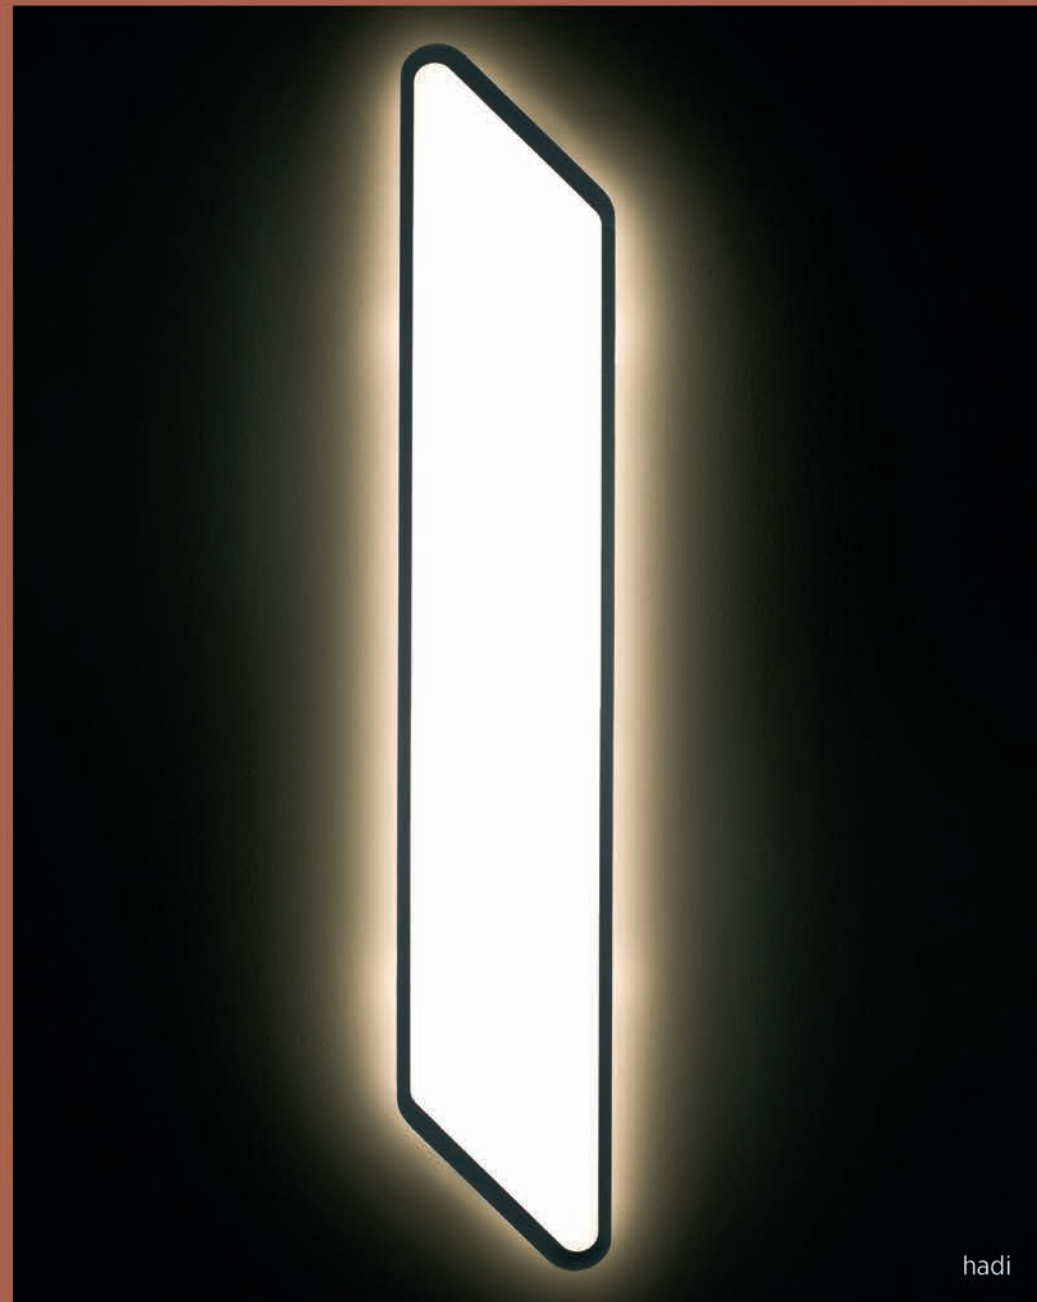

3000 K, 4000 K

TUNABLE WHITE: 2700 - 6500 K

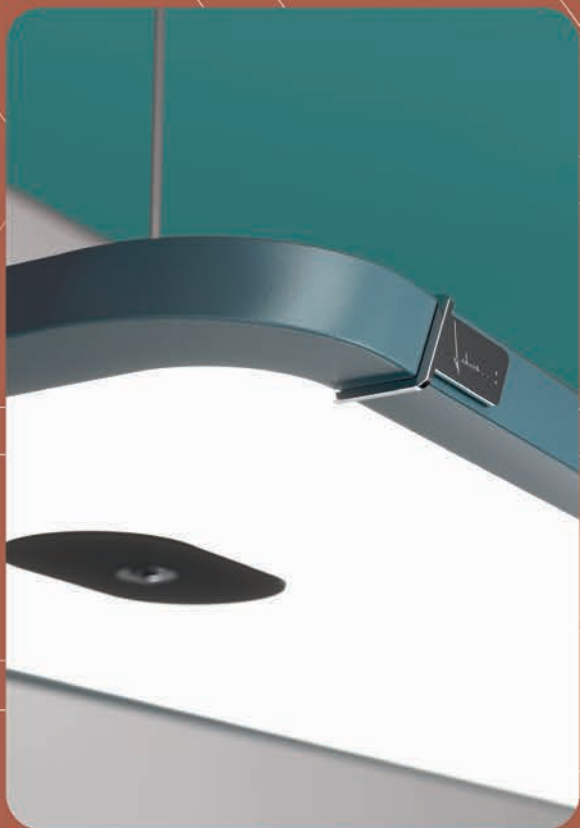

2x shapes & 2x mountings

The HADI-M and HADI-Q profiles are designed to meet a diverse range of interior design requirements. The highly versatile system can be adapted to various installation types and offers gentle, indirect lighting to enhance ambient spaces.

smart sensor control

An optional sensor automatically adjusts the luminaire in response to changing light conditions. In DALI installations, a single sensor can also control additional luminaires. With stand-alone versions, the sensor and its functions can be managed using the included remote control.

the complete solution

HADI provides adaptable, high-performance lighting for all office spaces, from small rooms to large open-plan areas, ensuring consistent, well-coordinated illumination.
