

An abstract geometric composition on a dark, textured background. It features several glowing yellow-orange circles and lines. One circle is in the upper left, another in the center, and a partial one on the right. Lines intersect these circles and each other, some appearing as thin black lines and others as glowing segments. The overall effect is minimalist and architectural.

YET SO MUCH MORE

PROLICHT
designed to create

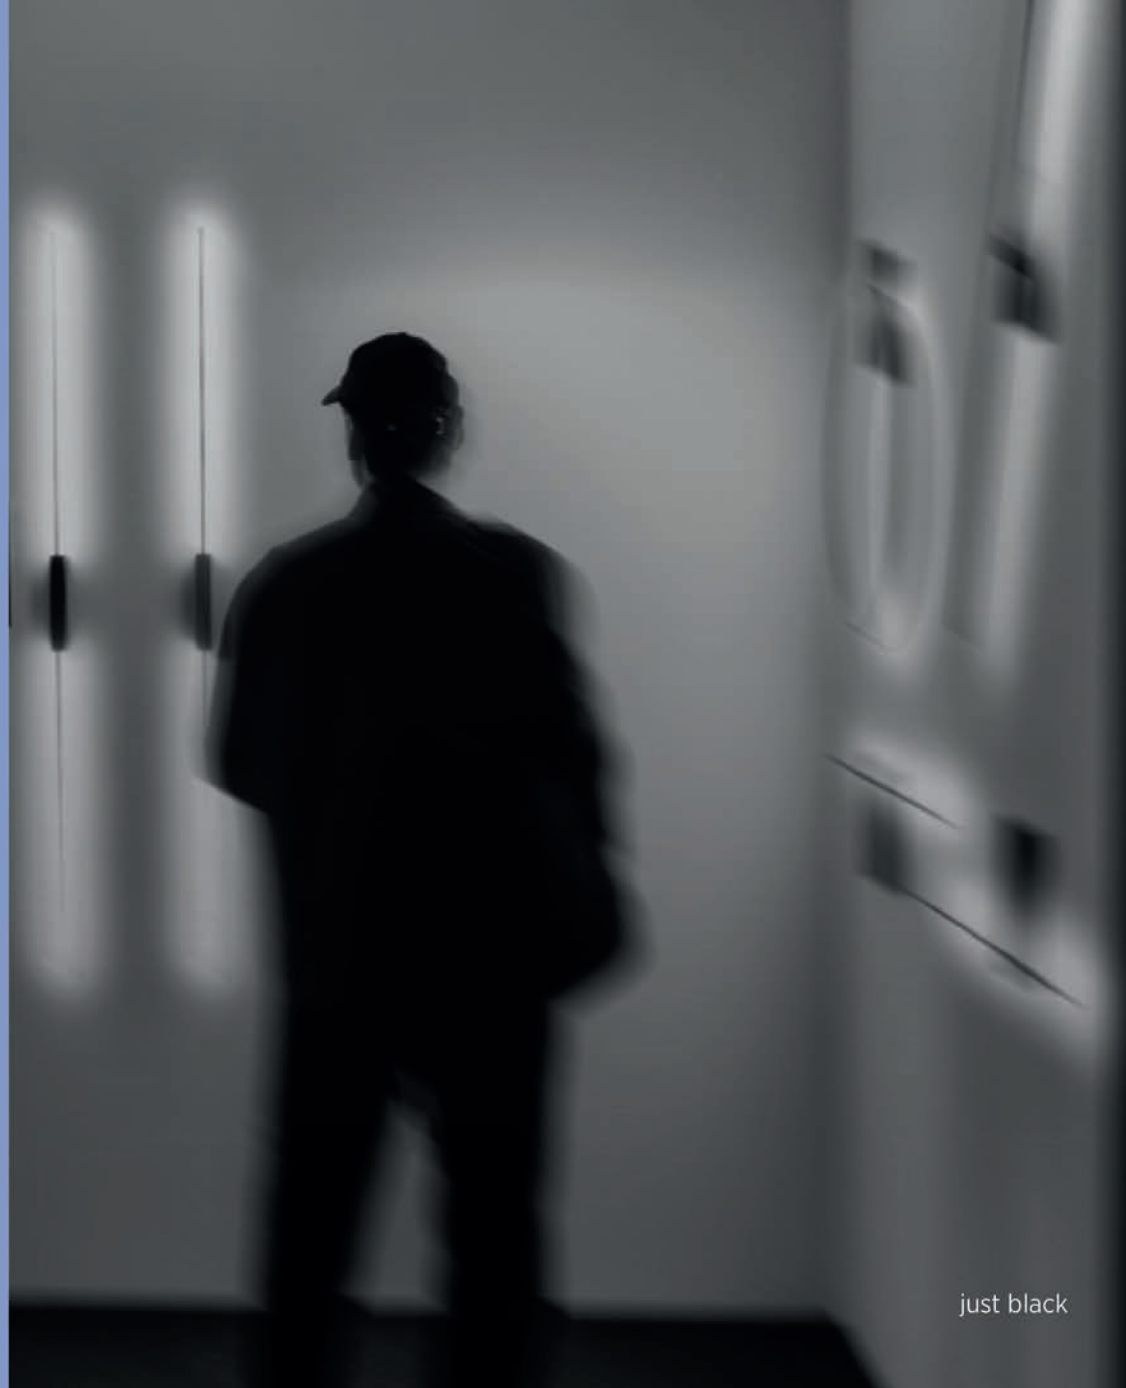

LINE

JUST BLACK is minimalism in its purest form. Thin black lines and halos blend into the architecture, defining the rhythm and atmosphere, while the system remains quietly in the background.

just black

just black

glorious

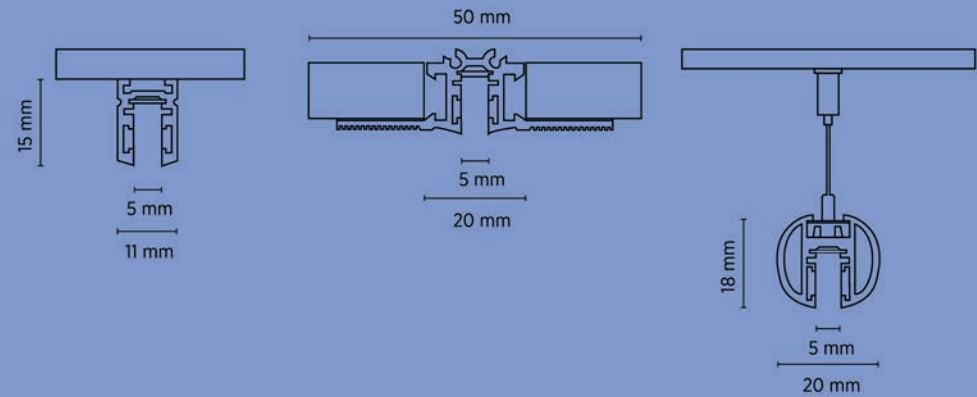

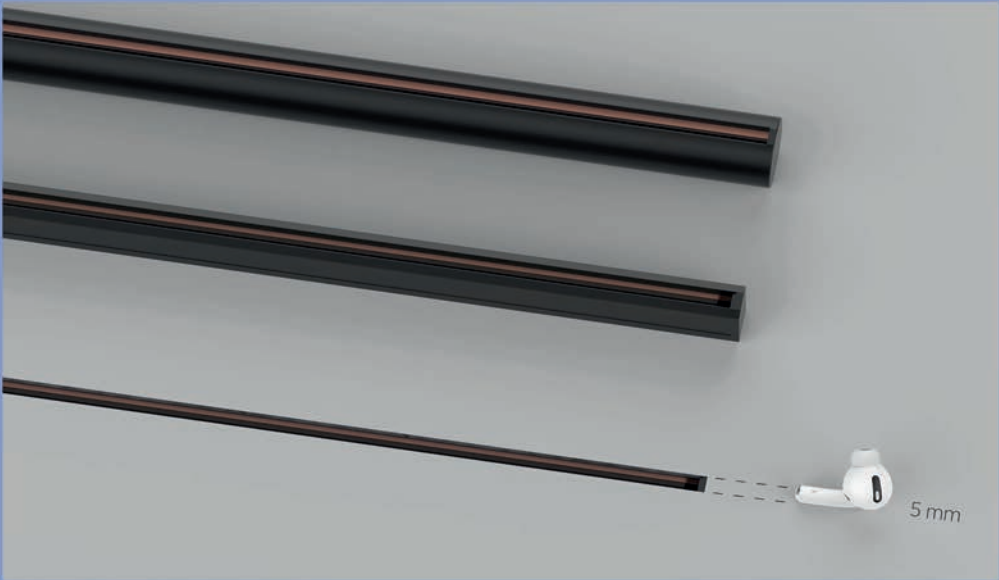

JUST BLACK is a hyper-miniaturised, 24 V track system with a visible width of only 5 mm. A continuous black line defines the path of the light, seamlessly integrating spots, linear elements, and decorative inserts into even the most intricate of interiors while having minimal visual impact. The tracks and inserts are black, ensuring the system recedes and the architecture remains in focus.

just black

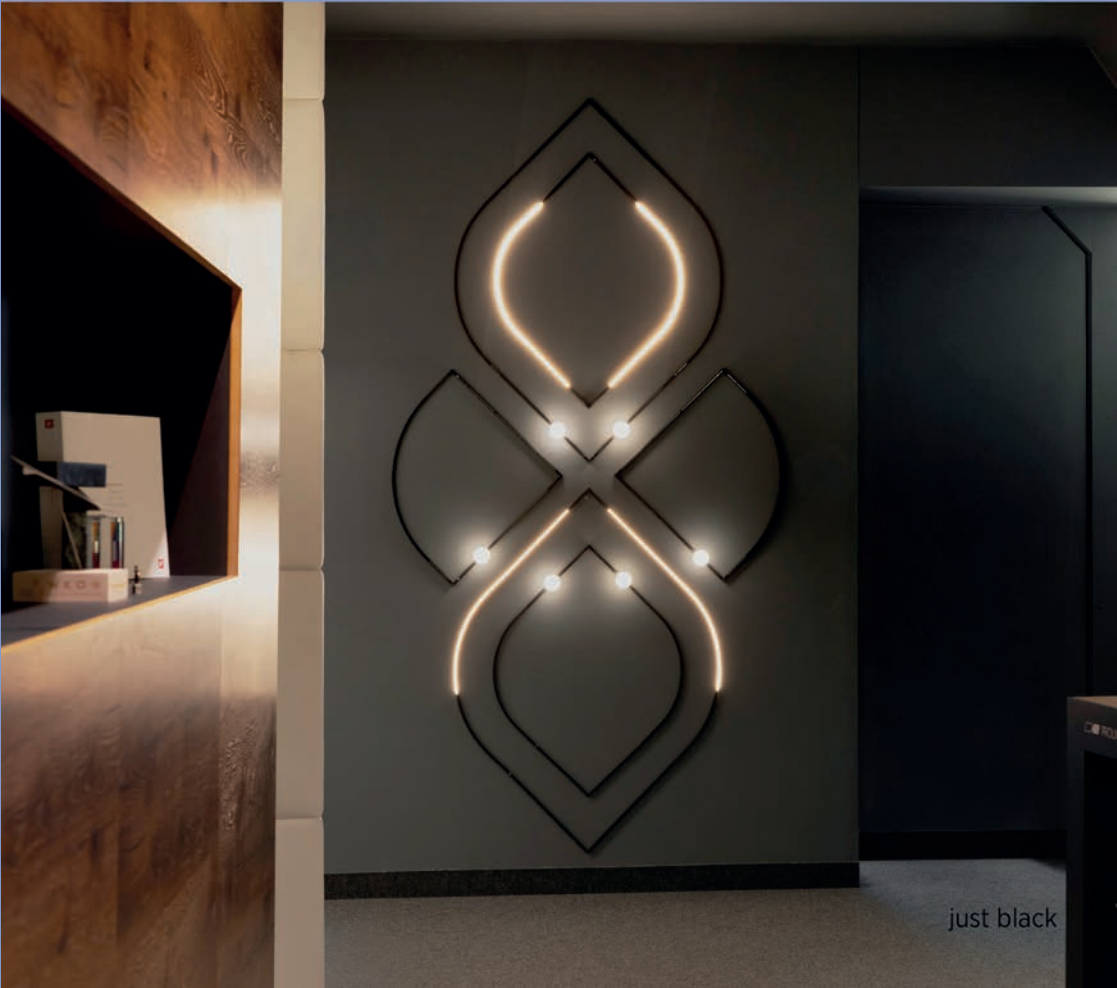

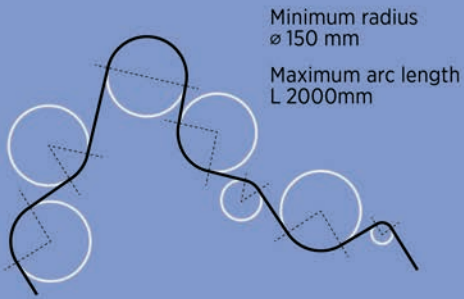

track versions

The Just Black Track is available in trimless recessed, rectangular surface-mounted and round suspended versions, all supporting the full range of JUST BLACK inserts. The system can be mounted on ceilings and walls, making it suitable for everything, from discreet residential applications to complex hospitality and retail layouts.

curved lines

Curves are standard elements of Just Black Surface, enabling soft trajectories to be traced through the space while maintaining system logic and straightforward installation. Available radius from 150 mm, with a maximum arc length of 2000mm.

just black lines

Use lines to create patterns, rhythms and guides on the wall, while keeping the luminaire's physical presence to a minimum.

The range includes rotatable and pivotable models for creating precise directional accents, available in three sizes: LINE 900, LINE 1200 and LINE 1500.

wall-mounted

just black halos

Ultra-slim rings that add a subtle graphic accent to the wall. All standalone versions feature indirect lighting, creating a soft, luminous circle with a discreet black outline.

The minimalist design turns light into a calm focal point for living areas, hospitality spaces and meeting rooms.
