LIGHT THAT NURTURES ATMOSPHERE

PROLICHT
designed to create

SHAPE

LIFE is more than a luminaire; it brings the sun into architecture. As a source of natural energy, it delivers light in perfect balance with the needs of indoor plants, creating environments that feel nurtured and alive.

life

designed by Giampiero Peia;
powered by Robonica

LIFE brings together Giampiero Peia's design vision and Robonica's expertise in light for human and plant wellbeing. The result is a timeless piece with a sophisticated core, suited to homes, offices and a wide range of public, commercial and educational spaces.

life

life

a unique indoor oasis

—
In places where natural light fades, LIFE brings its own sun. Uniting luminaire and plant, LIFE creates a harmonious space where greenery thrives and an intimate indoor oasis comes to life.
